Description:

Second state of Giacomo Rossi's map of Asia, first published in Rome in 1677.

The map provides an excellent depiction of the Philippines and China (revised to based upon Martini).

To the north of Japan, the lands and coastal features are still largely unknown and would not be extensively explored until the Russians did so in the first part of the 18th Century.

The map provides a fine detailed treatment of Asia, based upon the work of Nicolas Sanson. The map is engraved by master engraver Giorgio Widman.
